

A2
said first icon [for] identifying a first source from which at least one of said plurality of images originated; and

a binder for containing a plurality of said album leaves, said album having a plurality of retaining means for holding items containing the original source of the images contained in said album leaf.

A3
15.(Once Amended) A system for displaying, storing and retrieving images according to claim 14 wherein said album leaf is provided with a margin area separated from said images, said icon being [placed] located in said margin area.

A4 Sub B5
19.(Once Amended) A system according to claim 13 wherein said second side is also provided with a plurality of images and a second icon formed thereon, [for] said second icon identifying the source from which at least one of said plurality of images on said second side originated.

A5 Sub B6
25.(Once Amended) A system for displaying, storing and retrieving images, comprising:
an album leaf having a first side and a second side, said first side having a plurality of images [formed thereon] and an icon ^{formed} forward thereon, said icon [for] identifying a first source from which said at least one of said plurality of images originated;

a binder for containing a plurality of said album leaves; and
a retaining album leaf having a plurality of retaining means for holding items containing the original source of the images contained in said album leaf.

A6 Sub B7
27.(Once Amended) A system for displaying, storing and retrieving images according to claim 26 wherein said album leaf is provided with a margin area separated from said images, said icon being [placed] located in said margin area and said retaining means comprises a plurality of pockets.

A7 Sub B8
29.(Once Amended) A system for displaying, storing and retrieving images according to claim 25 wherein said second side is also provided

A7
with a plurality of images and a second icon formed thereon, said second icon[for] identifying the images on said first side and the first source and/or a second source from which the images originated.

Sub B10
A8
35.(Once Amended) A source retaining album leaf for placement in a binder having at least one album leaf placed therein, said album leaf having a first side and a second side, said first side having a plurality of images [formed thereon] and a first icon formed thereon, said first icon[for] identifying the a first source from which at least one of said plurality of images on said first side originated, said source retaining album leaf having a plurality of retaining means for holding items containing the original source of the images contained in said album leaf.

Sub B11
A9
40.(Once Amended) An image-bearing media having a first side and a second side, said first side having at least one image [formed thereon] and a first icon formed thereon, said first icon[for] identifying a first source from which at least one image originated.

Sub B10
42.(Once Amended) An image-bearing media according to claim 41 wherein said image-bearing media is provided with a margin area separated from said images, said icon being [placed]located in said margin area.

Sub B12
A11
45.(Once Amended) An image-bearing media according to claim 40 wherein a second icon formed thereon is provided on said first side for identifying a second source of a second image of said plurality of images originated on said first side, said second source being different from said first source.

46.(Once Amended) An image-bearing media according to claim 40 wherein said second side is also provided with at least one image and a second icon [for]formed thereon, said second icon identifying the source from which said at least one image on said second side originated.

Sub B13

52.(Once Amended) A system for displaying, storing and retrieving images, comprising:

an image-bearing media having a first side and a second side, said first side having at least one image formed on [thereon] said first side originating from a first source and an icon also formed on said first side for identifying the first source of said at least one image; and

a binder for containing a plurality of said album leaves, said album having a plurality of retaining means for holding items containing the original source of the images contained in said album leaf.

54.(Once Amended) A system for displaying, storing and

retrieving images according to claim 53 wherein said album leaf is provided with a margin area separated from said images, said icon being [placed] located in said margin area.

Sub B15

57.(Once Amended) A system according to claim 52 wherein a second icon is [provided] formed on said first side for identifying a second source of a second image of said plurality of images on said first side, said second source being different from said first source.

In the Specification:

Page 6, line 17, delete "52, 54" and insert --64, 66--.

In the Drawings:

Applicants hereby respectfully request permission to amend the drawings as follows:

In Fig. 1, add numeral 50 as illustrated in red on the attached sheet containing Fig. 1;

Fig. 2, by the addition of numerals 61, 64, 65 and 66 as shown in red on attached sheet containing Fig. 2.

REMARKS

The Examiner has objected to the drawings under 37 C.F.R. 1.83(a) for failing to show the icons 50, 52, 54, 64, 65, image ID 61 and cartridge
